The Red Ink Appeal

PERSONAL appeal has been made, in each of the last two issues of the Annual Announcement of the College of Physicians and Surgeons of Ontario, to the Members of the College, to aid the Registrar in his effort to prepare for publication a list of the College Members, their full names and addresses, their degrees and qualifications, which should be as far as possible complete and accurate.

Less than one in one hundred of the members of the College have responded to this appeal. Does it not seem incongruous that the Members of the College should hold the Executive responsible for errors and inaccuracies in a published register, which they alone are in a position to correct?

The College is not unfair in asking its Members to see that their own names and addresses appear correctly in the Register.

Some of the College Members have been magnanimous enough to place at the disposition of the College the names and addresses of their medical neighbors, as well as their own, and the Executive avails itself of this opportunity to express grateful appreciation of the same.

*It remains for "the ninety and nine" to do its share. Is it too much to hope that the Members of the Profession will endeavour to supplement the efforts of the Executive in this connection?

The College feels that it should not need to further elaborate its appeal for recognition of responsibility on the part of its members, and ventures to trust that each member reached by this appeal will feel himself under obligation to send to the Registrar his full name, his correct address and his qualifications.

The College of Physicians and Surgeons OF ONTARIO

Announcement for the Academic Year 1917-1918

"The College of Physicians and Surgeons of Ontario" is the name adopted by the Medical Profession of the Province of Ontario in its corporate capacity. Every legally qualified medical practitioner in the Province is a member of this College. It is not an institution for the teaching of medicine.

The Medical Profession of Ontario was first incorporated under this name by an Act of Parliament of Canada, passed in 1866. This Act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the Profession in this Province are regulated by an Act passed in 1874 (37 Vic., Cap. 30), commonly known as the "Ontario Medical Act," and further amended in 1887, 1891, 1893, 1895, 1902, 1905, and 1914-1915.

By this Act, the "Council of the College of Physicians and Surgeons of Ontario" is empowered and directed to enact by-laws for the regulation of all matters connected with medical education; for the admission and enrolment of students of medicine; for determining from time to time the curriculum of the studies to be pursued by them, and to appoint a Board of Examiners, before whom all candidates must pass a satisfactory examination before they can be enrolled as members of the College, and thus be legally qualified to practise their profession in the Province of Ontario.

The Council, moreover, has power and authority conferred upon it by this Act to fix the terms upon which practitioners of medicine, duly qualified in other countries, may be admitted as members of the College of Physicians and Surgeons of Ontario, this

being the only mode in which they can become legally entitled to practice their profession in this Province.

For the information and guidance of students of medicine, the Profession, and the public generally, the council, in conformity with the Ontario Medical Act, hereby promulgates for the year 1917-1918 the Regulations which herein follow, repealing all others heretofore in force.

All changes in the medical curriculum shall take effect at the next ensuing annual examinations.

SECTION IV.

Examinations—Duties of Registrar and Board of Examiners.

Rules for the guidance of the Registrar and the Board of Examiners:

1. The Registrar or a Deputy Registrar must be present at every examination, and each student must produce evidence satisfactory to the Registrar or Deputy Registrar of his identity.

2. At the end of each written examination upon any subject, the answers to the questions are to be handed by the candidates to the Registrar, who will open the envelopes, in which they are hereinafter directed to be enclosed, and to each set of papers affix a number by which the author will be known to the Examiners during the examination. The Registrar will then deliver the papers to those members of the Board of Examiners appointed by the Council to examine upon the subject, upon which these candidates have just been writing.

3. The papers when delivered to the members of the Board of Examiners appointed by the Council to examine on the subject, are to be by them examined, and the relative value of answers marked by means of numbers on a blank form which will be furnished to them by the Registrar.

4. The percentage in all subjects of the Professional Examinations shall range from 0 to 100, of which sixty per cent. will be required to pass in each subject.

5. The value awarded by the Examiners to the answers of candidates and confirmed by the Board of Examiners is final, and is not subject to revision.

6. In the event of any alterations or erasures in the marks of a paper, or of any question in a paper, the same shall be initialed by both Examiners.

7. The Examiners shall, on the completion of their work, conjointly certify to the schedule of marks and books. Their report, including schedule of marks and books, completed and duly certified, shall be final, and shall forthwith be filed with the Registrar.

8. The Examiner shall return the schedule to the Registrar, with values inserted, within fifteen days of the close of examinations on his subject. From these values a general schedule shall be prepared by a chartered accountant associated with the Registrar, which schedule shall be inspected and signed by the President before the results are announced.

9. The Registrar, in notifying the members of the Board of Examiners, will direct attention to the following instructions, a copy of which he shall enclose.

(a) In preparation of questions Examiners will confine themselves to the principles common to the standard text-books.

(b) In referring to diseases or operations of any kind, the name of such disease or operation most commonly in use must be employed, and the Examiners shall refrain as far as possible from the use of proper names and ambiguous questions.

(c) In the preparation of the paper, opposite each question shall be placed the value of a full and correct answer thereof—the whole of such numbers to amount to 100.

(d) In the reading of papers the Examiners shall mark in colored pencil what they regard as the numerical value of the answers given for each question opposite the same.

(e) The oral and clinical examinations are to be made as practical, demonstrative or clinical as possible, and shall occupy at least thirty minutes.

(f) Candidates shall be known to the Examiners by numbers only.

(g) There shall be two Examiners in each subject who shall conjointly set and examine each paper and conjointly examine the student in the "Oral and Clinical" Examination.

(h) In the event of any alteration or erasures in the marks of a paper, or of any question in a paper, the same shall be initialed by both Examiners.

(i) The Examiners shall meet at the close of the examination for consultation and consideration of reports before these are

forwarded to the Registrar. The Examiners shall, on the completion of their work, conjointly certify to the schedules of marks and books. Their report, including schedules of marks and books completed and duly certified, shall be final, and shall forthwith be filed with the Registrar.

10. Candidates for oral examinations will be divided into classes alphabetically, and notified of the time at which they shall present themselves for examination. Such students shall wait in an adjoining room, and appear before the Examiners when summoned.

11. The Examiners in each subject shall meet at a convenient point to prepare the examination papers, and shall send each paper to the Registrar by registered mail at least two weeks before the date of examination. (The Examiners shall approve of proofs before printing.)

12. As no appeal is now permitted from the findings of the Board, the President, with the Vice-President as his alternate, shall attend the usual meeting held by the Board of Examiners preparatory to handing in the Schedule of Examination Marks to the Registrar for consultation and consideration of said Schedule with the Examiners.

SECTION V.

Examinations—Rules for Candidates in the Examination Hall.

1. Each candidate shall receive from the Registrar a programme containing a list of subjects upon which the candidate is to be examined, and it will admit him to the examination hall during the progress of the examination upon such subjects, but at no other time.

2. Candidates must write the answers to the questions given by the Examiners legibly and neatly upon one side of each page of a book, which will be furnished to each candidate, and the number of each question, as it appears in the examination paper, is to be put at the head of the answer to it, in such a manner as to have the first page facing outward to the view; the papers then to be folded once and enclosed in an envelope, on the outside of which each candidate is to write his name. The packet is then to be handed to the Registrar or his deputy. No signature, number or sign, by which the writer could be recognized by the Examiner, is to be written or marked on any portion of the book to be enclosed in the envelope.

3. The questions of the Examiners in the Homeopathic subjects will be handed, at the beginning of the general examination

on the same subject, by the Registrar or Deputy, to such candidates as shall have given him notice in accordance with Section III., sub. sec. 7.

They shall write the answers to these questions in the same hall with the other candidates, and hand their papers, when finished, to the Registrar in the same manner as provided for other candidates, to be by him given for examination to the Homeopathic members of the Board of Examiners appointed to examine on that subject.

4. No candidate will be allowed to leave the hall after the questions are given out, until his answers have been handed in.

5. No one shall be allowed in the hall during the hours of examination, except those who are actually undergoing examination, or members of the Council or officials connected therewith.

6. Any candidate who may have brought any book or reference paper into the hall must deposit it with the Registrar before the examination begins.

7. Candidates must not communicate with each other while examinations are going on by writing, signs, words, or in any manner whatever.

8. Candidates must at all times bear themselves toward the Registrar or Deputy and Examiners with the utmost deference and respect; and they will not be permitted in any manner to manifest approbation or disapprobation of any member of the Board of Examiners during the progress of the examination.

9. Candidates must not only conduct themselves with decorum while an examination is going on, but they will be held strictly responsible for any impropriety of conduct during the whole progress both of the written and the oral examinations.

10. Any infraction of the above rules will lead to the exclusion of the candidate who is guilty of it from the remainder of the examination; and he will not receive credit for any examination papers which may have been handed to the Registrar or Deputy previous to his being detected in such misconduct.

11. And he may be debarred from further privileges at the discretion of the Council.

-

BY-LAW No. 2.

1. (a) In the event that an election shall require to be held for the election of a new Council or to fill a vacancy caused by the death, resignation or disqualification of any member elected from a territorial division to the Council, the Registrar shall send to all members entitled to vote at such election (except those registered as Homeopathic members) a circular letter stating that an election will be held for the purpose of electing a new Council or to fill such vacancy (as the case may be), that nominations will be received within thirty days after the date on which such circular letter shall be mailed, and that nomination by twenty members entitled to vote is necessary to render a candidate eligible for election.

(b) In the case of an election of a new Council the Registrar shall advertise in the medical journals published in Toronto (for a period of thirty days after the date on which the said circular letter shall be mailed) the fact that elections for the Council are

to be held, stating the last date on which nominations will be received and the approximate time of holding the election.

2. In the event of only one candidate being nominated in any territorial division, the Registrar shall notify him that he has been duly elected a member of the Council, but if more than one candidate eligible for election is nominated, the Council, or the Executive Committee, or (in the absence of an appointment so made) the Registrar on the recommendation of such Executive Committee shall appoint a member of the College, resident in such division, to act as returning officer, and shall mail to all registered members entitled to vote (except those registered as Homeopathic members) a voting paper and circular letter of instructions, which shall be similar to the forms set out in Schedules "A" and "B" respectively appended to this By-law. Such voting paper duly filled out must reach the returning officer on or before the first juridical day after the expiration of fifteen days following the mailing thereof by the Registrar.

3. The returning officer shall, on the day and time stated in the circular letter of instructions and not prior thereto, open the envelopes, carefully count and examine the voting papers, make a record of the entire number of votes cast, and of the name and address of the person receiving the greatest number of votes, who shall be declared elected as the representative of the division, and in case two or more candidates receive an equality of votes the returning officer shall give the casting vote for one of such candidates which shall decide the election.

4. The returning officer shall permit all or any of the candidates in the division or their agents duly appointed and authorized in writing to act on their behalf to be present when the envelopes are opened and the votes counted, and to examine all voting papers to satisfy themselves as to the voting papers being properly filled up, and that the persons signing the voting papers are duly registered members of the College and entitled to vote at the election.

5. (a) The returning officer shall seal up and return all voting papers connected with the election to the Registrar within six days from the time appointed for holding the election.

(b) The returning officer shall return all envelopes containing voting papers, received after the date and hour mentioned in the circular letter of instructions to the Registrar, unopened and marked "too late." Such envelopes shall bear his stamp as returning officer of the division.

6. The Registrar, on receiving declaration from the returning officer, declaring a candidate has received the largest number of votes in the division, shall forthwith inform the candidate declared elected that he has been chosen to represent said division in the

RULES OF ORDER

5. When any member is about to speak in debate he shall rise in his place and address the presiding officer, confining himself to the question under debate.

6. When two or more members rise at the same time the presiding officer shall name the member who is first to speak.

7. No member, while speaking, shall be interrupted by another, except upon a point of order, or for the purpose of explanation. The member so rising shall confine himself strictly to the point of order, or the explanation.

8. If any member, in speaking or otherwise, transgress the rules, the presiding officer shall, or any member may, call him to order, in which case the member so called shall immediately sit down, unless permitted to explain.

9. No member shall speak more than once upon any motion, except the proposer thereof, who shall be permitted to reply; nor shall any member speak longer than a quarter of an hour on the same question without the permission of the Council, except in explanation, and he must then not introduce new matter.

10. Any member of the Council may require the question under discussion to be read at any time of the debate, but not so as to interrupt the speaker.

11. When the matter under consideration contains distinct propositions, under the request of any member, the vote upon each proposition shall be taken separately.

12. No member shall speak to any question after the same has been put by the presiding officer.

13. Notices shall be given of all motions for introducing new matters other than matters of privilege and petitions at a previous meeting to that at which it comes up for discussion, unless dispensed with by a two-thirds vote of the members present. Any matter when once decided by the Council shall not be reintroduced during that session, unless by a two-thirds vote of the Council then present.

14. A motion must be put in writing and seconded before it is stated by the presiding officer, and then shall be disposed of only by a vote of the Council, unless the mover, by permission of the Council, withdraws it. Every member present shall vote unless excused by the Council.

15. At the close of the annual session the minutes of the last meeting shall be read, approved and signed by the presiding officer.

16. In all cases not provided for by these rules, resort shall be had to the procedure of Parliament.

17. The Registrar shall make a list of all motions and reports on the table in the order in which they were received, which shall be considered under the heading "General Orders of the Day."

18. The presiding officer shall preserve order and decorum during each session of the Council, and protect the members in the enjoyment of their rights and privileges. He shall decide all questions of order, giving his reasons for such decision, and citing the rule applicable to the case, subject, however, to an appeal to the Council, and in case of an appeal it shall be put by the presiding officer in the following words: "Shall the chair be sustained?"

19. All questions of order upon which an appeal has been made from the decision of the presiding officer shall be decided by a direct vote of the Council without debate.

20. The presiding officer shall declare all votes, but, if any members demand it, such presiding officer, without further debate on the question, shall require the members voting in the affirmative and negative, respectively, to stand until they are counted, and he shall then declare the result. At the request of any two members the yeas and nays shall be taken and recorded.

21. The presiding officer shall not give any other than a casting vote, but may express his opinion on any subject under debate.

22. The presiding officer shall consider a motion to adjourn as always in order; but no second motion to the same effect shall be made until after some intermediate business has been transacted. This motion must be put without debate.

23. No motion except to adjourn shall be introduced unless it be written in ink and contains the names of the mover and seconder.

24. Every motion shall be read by the mover, standing in his place; it shall then be handed to the presiding officer, who shall read and submit it to the Council.

25. When a question is under debate, no other motion shall be entertained except a motion to amend, to commit, to postpone, or to lay on the table, or a motion for the previous question, or for adjournment, which last shall always be in order except when the Council is in Committee of the Whole.

26. Amendments, whether in Committee or in Council, shall be submitted to the vote before the original motion, in the reverse order in which they are moved.

27. A motion for commitment, until it is decided, shall preclude all amendments to the main question.

28. A motion to postpone shall include a day to be named for the further consideration of the question.

29. A motion to lay on the table shall be taken without debate; when it prevails the subject matter shall not be revived during the session except by a two-third vote of the Council.

30. The "previous question" until it is decided shall preclude all amendments to the main question, and shall be put, without debate, in the following words: "Shall the main question be now put?" If this motion be resolved in the affirmative, the original question is to be put forthwith, without amendments or debate.

31. Whenever the presiding officer shall consider that a motion before the Council is contrary to the By-laws or inconsistent with the report or other matter to which it was intended to refer, it shall be his duty to rule it out of order.

Minutes of the Meeting
OF THE
MEDICAL COUNCIL OF ONTARIO
JUNE, 1917
FIFTY-SECOND ANNUAL SESSION

FIRST DAY

The Annual Meeting of the Council for 1917 began to-day, Tuesday, June 26th, at the hour of 2 o'clock in the afternoon.

The President, Doctor Edmund E. King, took the chair and called the Council to order.

Roll Call

The Registrar called the roll, when the following members responded: Drs. Addison, Argue, Becker, Brodie, Connell, Crain, Cruickshank, Eccles, Emmerson, Farncomb, Ferguson, Sir James Grant, Griffin, Hamilton, Hardy, Jarvis, Johnson, Kellam, King, J. M. MacCallum, S. McCallum, Routledge, Spankie, Stewart, Walters, and Wickins. Dr. Dales entered later.

Retiring President's Address

The retiring President, Dr. Edmund E. King, then addressed the Council, reviewing at length the more important occurrences of interest to the College which had transpired during the year:—

Mr. President and Gentlemen,

“In departing somewhat from the usual custom I have thought that matters of such great importance have taken place during the past year that it is to our advantage to review some of them. You have each received during the year a full copy of the business done at the Executive meetings. There are two or three matters arising out of those minutes to which I wish particularly to draw your attention. A letter was received from Dr. Emmerson in November asking that the evidence taken by the Royal Commissioner should be compiled and sent to each member of the Council. This matter will be very expensive, and could not be done without the consent of the Commissioner, and as a full report of each and every meeting of the Commission is in our possession it can be referred to by any member of the Council, but it would be financially impossible, even if the consent of the Commissioner could be obtained, to send this report broadcast.

A communication was received from Dr. Walters in reference to the pay of medical officers in the Militia and the expeditionary force. This matter will be referred to later. At the January meeting I brought to the attention of the Executive the fact that there was a dearth in the supply of medical men, both in the Canadian service and the British service, and suggested that we get a service card similar to the National Service card issued by the College to every practitioner in Ontario, and ask him to fill up and return to us so that we could have on record the willingness of each and every member of the profession to do his bit in winning the war. This would entail a great deal of work on the part of the office, but at the same time it would place the members of the medical profession in such a position that if their services were required they could be easily got at and their wishes known as to what part of the service they would be willing to work in. The Executive asked that I present this matter to the authorities in Ottawa, and I presented the matter to the Minister of Militia, and made an appointment with the Director of National Service to see him in the matter. The Director, however, failed to keep the appointment made, and the Minister was not enthusiastic. In fact he said that other business was so much more important that he would have to consider it later. That consideration has not been given yet. I consider this a very important matter, as the returned soldiers increase, and the attending of the convalescing increases. Many centres will have to be opened up, and the centres now open will have to have their staffs very materially increased. This card would indicate at the rate the medical officers would feel that they could relinquish their practice or give part of their time, and it would be a great aid to the Government in determining how the remuneration of medical men would be accomplished.

In reference to the services given to the Hospitals Commission and the Convalescent Hospitals, a large number of the medical men, in fact the majority, are giving their services gratis. This is a matter that deserves the highest praise to the medical men who are so giving their services, but it seems to me that it is quite unnecessary that the country should expect the medical men to relinquish their work for so many hours per day without rank, without pay, and in many cases without very kind consideration. None of the military nor medical officers are asked to serve without remuneration. Why should medical men be expected to? It was always thus!

THE WORKMEN'S COMPENSATION ACT

In December the Registrar wrote to each State in the Union where a Compensation Act was in force, and asked them for information, copies of their Act, etc., particularly referring to that part where the services for medical aid was compensated. Each

State very kindly and quickly responded, and we got together the acts and amendments to the original acts so that we could compile information from all the States of the Union where acts were in force. This matter was brought together, and your Committee met the Committee of the Ontario Medical Association and the Academy of Medicine of Toronto, who were appointed for this same purpose, and we worked in conjunction. We had three appointments with the Government, and the matter was presented to them from our standpoint, at the same time that the manufacturers and the labor men presented their side of the case. The Government listened carefully to our considerations, and drafted an amendment. The amendment as brought in by the Attorney General appeared to be quite right, and until one read it carefully was satisfied that things had gone as we had hoped they would, but a paragraph in the clause dealing with medical services on being read with the context showed us that it did not do what it purported to do, but that a person had to be entitled to compensation, that is, disabled over seven days before they came under the amended clause of medical services. I hurriedly called the Committee together, and got the other committees to meet us, and we decided to present a bold front and attack the Government again. We were received courteously, but were emphatically told that there was no use proceeding any further, as the Government had made up their mind, and that was as far as the matter would go. It caused us to resort to other means, and we called in the Committee of the other parties interested in the Act. Sufficeth to say that just before the prorogation of the House the Attorney General brought in an amendment to the amendment, and had the medical services of injured workmen taken care of from the time of the injury irrespective of the fact of their being entitled to compensation or not. Consequently by strenuous efforts we were enabled to secure what we were looking for. This brings to a close the correction of the Workmen's Compensation Act, which was necessitated by our not receiving proper consideration at the inception of the Act, notwithstanding the fact that it was acknowledged that we were entitled to such. It now remains to be seen how the Commission will treat the medical profession, as the accounts rendered in these cases must be on the basis of a similar account rendered to a man in the same station of life if tendered as a private individual.

FIFTH YEAR STUDENT

The matter of the Fifth Year Student who is finishing his course with a practitioner has been before us. Complaint was laid at a specific incident, and the prosecutor proceeded to an eastern city and prosecuted the student for illegally practicing medicine. The Council should define just what a fifth year student, completing his course with a practitioner, may or may not do. A large

number of complaints have been received where fifth year students have been doing more than certain practitioners in the community where he is working think that he should, and in a number of instances where he has been placed in charge of camps and has had to work on his own responsibility. If the Council will more clearly define just what the proper interpretation of this matter is it will materially be to the advantage both of the student and of the practitioner from whom he is receiving aid and with whom he is completing his education. This matter will, however, soon right itself, as the course is now altered; that will do away with these options.

THE MEDICAL COMMISSION

As you are aware the Medical Commission has not yet presented its findings, and just when it will depends upon the Commissioner. In all probability, however, it is fair to assume that it will be presented at the next session of the Legislature, unless war matters will preclude any other legislation coming before it.

During the year several sessions have been held, and the Executive or your President and Registrar have attended each of the sessions. The Ontario Medical Association and the Academy of Medicine have each a committee looking after the interests of the profession as coming before the Commission, and I have as far as possible worked in conjunction with those committees I believe to the advantage of the profession. You are aware of the judgment of the Supreme Court which led to the peculiar position that the profession has occupied during the past many years. There is no copy of that decision printed excepting in the announcement of 1906-7, which is now out of print, and I feel that it would be money well spent to have a copy of that judgment printed separately or appending to the announcement 1917-18 of this matter, so that every member of the profession can have before him at the present time while the Commission is sitting a copy of the judgment to be able to see wherein it affected the profession. It all hinged on the definition of the practice of medicine, and on this point we have been asked by the Commissioner to present a definition of the practice of medicine which would be to our satisfaction.

Two years ago a committee was formed to deal with this matter, and they, as you are aware, brought in a report giving a definition of the practice of medicine. This, however, has not been presented to the Commissioner, as it was not approved in its entirety by our legal adviser. I think we should at this session decide on a definition of the practice of medicine that will be satisfactory. This may not be adopted by the Commissioner, and in that event we may have to disagree, but it behooves us to present to him a definition as agreed upon by this Council.

A matter of gross importance that necessitated us drawing the

attention of the Government and the Medical Commissioner is a verdict rendered at an inquest held in St. Thomas. We asked to be advised how we should proceed. We had a copy of the evidence taken and a copy of the verdict rendered, and we have not yet been advised by the Government how we should proceed in the matter. However, we have drawn the attention of the Commissioner to the salient points in this evidence, and have shown him that the total education of the two men involved in these cases did not exceed ten weeks.

The University of Toronto presented to the Commissioner its view on extending its medical course over six years. The Council has not received a copy of this matter, but I have secured one from the Dean, and also from the Dean of Queen's a copy of its reply to the same, and also a copy of the reply to the reply, and lastly a reply to the reply to the reply on that subject. This is neither tautology or used in any jocular mood, it is a serious condition. The Council should look well into this matter. It has always been the case in past years to adopt that course that will be of the greatest advantage to the student in fitting him for his life's work. The whole matter seems to point to Senior Matriculation as a starting point.

We have a complete schedule of the changes made in the curriculum at many dates, in which all of these advances have been made by the College (a copy of which you have on your desk). There are yet many to be heard before the Commission and the reply of the College to any or all of the matters is quite in order as the Commissioner has very kindly informed us that we will be given an opportunity to be heard on any point we desire.

Another exceedingly important matter is the question of venereal disease. It is the duty of the Council to deal with all matters that pertain to Legislation. In Great Britain the venereal question has occupied a great deal of attention, and an Act, a copy I have herewith, has been passed by the House of Lords, and is at present before a select Committee of the House of Commons, which deals with this matter very drastically. It deals with this matter from the standpoint of the individual as well as from the standpoint of the public in general. It makes it a crime to communicate the disease; it makes it a crime to treat the disease under very stringent restrictions, and in this matter I feel that the Council should lead and take the matter up, and bring in a recommendation whereby legislation can be secured that will obliterate the quack and the practicing druggist, etc. We have through prosecutions of illegal practice not met with the success that we feel we should have because the law has been so worded that we have not always been able to reach the parties responsible, but in the Act as referred to in Great Britain there will be no trouble in easily reaching the culprit and placing him in the pale of the law.

EXAMINATIONS

The large number of students who fail in their final examinations brings very forcibly before us a most serious question, and that is when should elimination begin. At what period of a student's career should he be eliminated? There is at present on foot an effort to limit student classes. That part of the matter is not for the State Licensing Boards (The College of Physicians and Surgeons in Ontario), who are the final arbiters. These bodies must look to it that the final efforts of the Universities turn out an article that is safe to the public, and of as high a standard as is possible. Matriculation must be maintained and elevated, but there is another element, a selective element, and this has been attempted in three or four States of the Union, but within such a short period that it is impossible at the present time to say with what success.

The University has most and first interest in the number of its students, and of course a final interest in the quality of its graduates. Where the Medical Faculty has to largely depend on fees the number of students are by no means an unimportant factor, but it is not fair to the student or to the public that those not possessed of the highest standard should be allowed to practice on the public. There is no means of discerning between holders of the license to practice. All stand on an equal footing irrespective of ability or capability. This is a most difficult question, and it must be solved, and it should be solved at the beginning. A grave responsibility rests on the Council. We can establish the standards of Matriculation, of preliminary education, of professional training, and final licensing of the examination, and they can all fall down if the material on which all this educational effort is spent is not of the best, and more particularly of the most suitable type. I am of the opinion that there are many hundreds of men practicing medicine who began their studies because of the outward appearance of an easy life, and the social standing in the community. It is impossible to say who will succeed and who will fail, but if the start is made from the best selected material there should be far more successes than failures, and I ask in all sincerity is this so? and again, are there not too many ordinary or below the normal level in practice, and far too few above the normal and brilliant. We should try and devise some means to see that the culling and selection is done at the commencement of the professional career. There should be more elimination from the study of medicine at the end of the first year after the student has had an opportunity of finding his level. At this time it is fairly easy for the professor to find out what is in the man, and if he is not showing up well he should be advised to change his career. If this was done there would be fewer pluckings at the end of five years.

Then again, look at the economic waste of man power, the waste of wealth, the robbing of the other walks of life of men who

may have made brilliant successes if they had chosen the career for which they were most suited. We have, as I said before, nothing to do with the method by which the universities select their students, but it devolves upon us to check up the finished product, and see that their efforts have resulted in the best finished article.

IN THE MATTER OF ACCREDITED COLLEGES

As instructed last session the Registrar communicated with a great number of colleges in the United States, and subsequently with the Medical Boards of the different States, and we received from them several copies of their calendars. On looking over the vast amount of literature which we obtained it seemed almost impossible that any committee could intelligently compile from these calendars a very intelligent report without devoting such an amount of time as no one could expect them to do. Consequently I had the Registrar communicate with the Educational Department to find if it was possible to secure a man trained in this class of work who would take the volumes, analyze them, compare them, and draw up a report so that we could act upon this compilation. We found the gentleman, and with the sanction of the Executive Committee entrusted the work to him. How carefully he has done the work you will see by the report which is at present on your desk. He went into the matter most thoroughly, and not only tabulated each calendar but made a comparison between it and the Provincial University. As this work proceeded it was seen that it would be a very extensive report. However, it was necessary for us to give the proper attention that the report be completed, and I hope that the members of the Council will approve of the action of the Executive in this matter.

I desire here to thank the gentleman who did this work on its thoroughness and completeness.

A Committee met afterwards, and you will receive a report from them as to their findings."

Dr. Cruickshank, seconded by Dr. Dales, gave notice of motion, "that this Council is of the opinion that there should be only one qualifying examination in the Dominion."

Dr. G. M. Brodie, seconded by Dr. R. Ferguson, gave notice that he would move that:

Whereas in the past it has been manifest that wilful and designing efforts have been made by persons, firms and corporations to circumvent the provisions of the then law, namely, "The Liquor License Act," by placing on the market certain alleged patent or proprietary medicines containing in some instances a very high percentage of alcohol, and in many others a higher percentage of alcohol than was essential for preservative effects, with the result that many persons have thereby innocently and unintentionally become addicted to the immoderate use of alcoholic stimulants, and,

Whereas now since the coming into force of the "Ontario Temperance Act" with its prohibitive effects upon the purchase and sale of intoxicating liquors, there has been reported a marked increase in the demand for and the sale of the said so-called proprietary or patent medicines containing a high percentage of alcohol, and consequently a still greater controversion of the law, and

Whereas a greater percentage of alcohol in medicine than five per cent. is unnecessary as a preservative, and, in all cases where alcohol is used as a preservative, such preparations should contain sufficient medication to prevent their being used as a beverage, and

Whereas the sale and use of such so-called medicines in many cases are dangerous and an imposition upon the public and a cloak for the controversion of the "Ontario Temperance Act."

Now be it therefore resolved that this Council, under its corporate seal, witnessed by the hands of the President and Registrar, forward a written request to the Provincial Government to take such steps as may be necessary to prevent or prohibit the sale of all patent or proprietary medicines containing alcoholic content in excess of five per cent.

Dr. E. T. Kellam, seconded by Dr. H. S. Griffin, gave notice that he would move:

That whereas many unqualified men throughout the Province are doing radiograph work, this Ontario Medical Council is of the opinion that whereas the reading of these radiographs frequently results detrimentally to the qualified profession, that legislation should be secured to prohibit the reading of radiographs by unqualified men.

NOTICES OF MOTION

Dr. Brodie gave notice of motion as follows:

Moved by G. M. Brodie, seconded by R. Ferguson,

That whereas in the past it has been manifest that wilful and designing efforts have been made by persons, firms and corporations to circumvent the provisions of the then law, namely, "The Liquor License Act," by placing on the market certain alleged patent or proprietary medicines, containing in some instances a very high percentage of alcohol, and in many others a higher percentage of alcohol than was essential for preservative effects, with the result that many persons have thereby innocently and unintentionally become addicted to the immoderate use of alcoholic stimulants and,

Whereas now since the coming into force of the "Ontario Temperance Act," with its prohibitive effects upon the purchase and sale of intoxicating liquors, there has been reported a marked increase in the demand for, and the sale of the said so-called proprietary or patent medicines containing a high percentage of alcohol, and consequently a still greater controversion of the law, and

Whereas a greater percentage of alcohol in medicines than $2\frac{1}{2}$ per cent. is unnecessary as a preservative, and, in all cases where alcohol is used as a preservative, such preparations should contain sufficient medication to prevent their being used as a beverage, and

Whereas the sale and use of such so-called medicines in many cases are dangerous and an imposition upon the public and a cloak for the controversion of the "Ontario Temperance Act,"

Now be it therefore resolved, that this Council under its corporate seal, witnessed by the hands of the President and Registrar, forward a written request to the Dominion Government to take such steps as may be necessary to prevent or prohibit the sale of all patent or proprietary medicines containing alcoholic content in excess of $2\frac{1}{2}$ per cent.

Further, that a copy of this resolution be forthwith forwarded to the Board of License Commissioners for Ontario.

By Drs. Brodie and Routledge:

"That the Solicitor of the Council be instructed to direct the attention of the Attorney General's Department to the verdict of the Jury respecting the case reported by the St. Thomas Medical Association to the Registrar of the Council."

Dr. J. M. MacCallum gave notice of the following motion:

The Council of the College of Physicians and Surgeons of Ontario, conscious of the exalted sentiments which have actuated

the editorial columns of the *Globe* in all its utterances in the past in connection with the Ontario Medical Council and the Ontario Temperance Act, desires to assure the *Globe* of its co-operation in any and all measures for the public welfare, a co-operation evinced by the past acts of this Council.

At the same time this Council asks the assistance of the *Globe* and its editorial columns in putting an end to all patent and other subterfuges to evade the Ontario Temperance Act, notably the remedy "Tanlac," advertised in the columns of the *Globe*. This Council desires to express the belief that the editorial staff of the *Globe*, once apprised of the fact that "Tanlac" is a wine containing 17 per cent. of alcohol, and its medical constituents of little medicinal virtue, will at once take prompt measures to see that no further advertisement of "Tanlac" appear in the *Globe*.

Dr. King, seconded by Dr. Walters, gave notice of the following motion:

"That for Military purposes, a census of the Medical Profession of Ontario be taken, and that a card should be sent to each practitioner of medicine in Ontario, requesting him to fill out and return the same to the Registrar of the College. The information thus obtained to be compiled and placed at the disposal of the Department of Militia and Defence."

MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

Dr. Kellam moved, seconded by Dr. King, the resolution, of which notice was given this morning, viz.: "Whereas the importance, and the alarming menace to the public from the serious prevalence of venereal diseases are keenly appreciated by this Council, be it resolved, that the President name a Special Committee to draft a resolution embodying our interest and concern in this subject, for presentation to the Dominion Government." (Carried).

Dr. Hamilton withdrew motion, of which he gave notice this morning, in view of the introduction of a somewhat similar motion by Dr. J. M. MacCallum.

Sir James Grant, seconded by Dr. Farncomb, moved the resolution, of which he gave notice this morning, viz.: "That the members of the Medical Council, College of Physicians and Surgeons of Ontario, desire to place on record our appreciation of the progressive temperance legislation of the Honorable Sir William Hearst and Government in Ontario, which, in our humble opinion, will materially advance the best interests of Ontario, the Premier Province of Canada, and it would afford us pleasure to note like action of a temperance movement in the entire Dominion." (Carried).

Upon vote, the amendment was declared lost, and the original motion carried.

MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

Dr. Brodie, seconded by Dr. Ferguson, moved resolution, of which notice was given yesterday, as follows:

That whereas in the past it has been manifest that wilful and designing efforts have been made by persons, firms and corporations to circumvent the provisions of the then law, namely, "The Liquor License Act," by placing on the market certain alleged patent or proprietary medicines containing, in some instances, a very high percentage of alcohol, and in many others a higher percentage of alcohol than was essential for preservative effects, with the result that many persons have thereby innocently and unintentionally become addicted to the immoderate use of alcoholic stimulants, and,

Whereas now, since the coming into force of the "Ontario Temperance Act," with its prohibitive effects upon the purchase and sale of intoxicating liquors, there has been reported a marked increase in the demand for, and the sale of the said so-called proprietary or patent medicines containing a high percentage of alcohol, and consequently a still greater controversion of the law, and

Whereas a greater percentage of alcohol in medicines than 21½ per cent. is unnecessary as a preservative, and, in all cases where alcohol is used as a preservative, such preparations should contain sufficient medication to prevent their being used as a beverage, and,

Whereas the sale and use of such so-called medicines in many cases are dangerous and an imposition upon the public, and a cloak for the controversion of the "Ontario Temperance Act."

Now be it therefore resolved, that this Council under its corporate seal, witnessed by the hands of the President and Registrar, forward a written request to the Dominion Government to take such steps as may be necessary to prevent or prohibit the sale of all patent or proprietary medicines containing alcoholic content in excess of 21½ per cent.

Further, that a copy of this resolution be forthwith forwarded to the Board of License Commissioners for Ontario. (Carried).

Dr. Brodie, seconded by Dr. Rountledge, moved resolution of which he gave notice yesterday, viz.: "That the Solicitor of the Council be instructed to direct the attention of the Attorney General's Department to the verdict of the Jury respecting the case reported by the St. Thomas Medical Association to the Registrar of the Council." (Carried).

Dr. J. M. MacCallum asked that consideration of his motion re Globe Newspaper advertising be deferred until a later session. (Granted by Council).

Dr. King, seconded by Dr. Walters, moved resolution, of which notice was given yesterday, "That for Military purposes, a census of the Medical Profession of Ontario be taken, and that a card should be sent to each practitioner of medicine in Ontario, requesting him to fill out and return the same to the Registrar of the College, the information thus obtained to be compiled and placed at the disposal of the Department of Militia and Defence."

Dr. Kellam, seconded by Dr. Griffin, moved that there be added to the above resolution the following provision: "The matters covered by this motion shall be referred to a special committee, whose duty will be to further the results aimed at, the President to nominate the committee."

With this addition, the resolution was submitted to the Council and carried.

Report of Prosecutions Committee

Dr. McCallum moved, seconded by Dr. Farncomb, that the report of the Prosecutions Committee, to which is appended the Prosecutor's Annual Report, be adopted. (Carried).

Report of Printing and Property Committee

The Registrar read the report of the Printing and Property Committee, when Dr. J. M. Mac'allum moved, seconded by Dr. Farncomb, that it be adopted. (Carried).

The report follows herewith:

Toronto, June 28th, 1917.

To the President and Members of the College of Physicians and Surgeons of Ontario.

Gentlemen:—I beg to present the report of the Printing and Property Committee.

Since the last meeting of the Council there has been added to the equipment of the building a fire escape, the necessity for which has long been apparent, and authority for the construction of which was granted during the preceding year.

The hot water heating system has been repaired from time to time continuously for many years back, but is now proving inadequate to heat the building, and this will necessitate the substitution of a new boiler for the one at present doing duty. The radiators appear to be generally in good condition.

The fence at the rear of the property has in places given way, due to earth being deposited on the other side of it, for the purpose of raising the level of the lot abutting upon the College property. The owner of this lot is not willing to replace the fence, and the College solicitor has been asked to protect the interests of the College in connection with the same.

As mentioned in the report of this Committee a year ago the building requires painting outside and decorating inside.

In other particulars, the building and grounds are in good condition.

All of which is respectfully submitted.

(Sgd.) ARTHUR JUKES JOHNSON,
Chairman.

The report of the Discipline Committee, affecting the standing of Dr. L. C. E. Beroard, was presented by Dr. S. McCallum, who moved, seconded by Dr. Walters, its adoption.

The report is as follows:

DOMINION OF
CANADA,
PROVINCE OF
ONTARIO,
COUNTY OF YORK

To Wit:

IN THE MATTER of an enquiry directed to be held by the Council of the College of Physicians and Surgeons of Ontario, before the Discipline Committee of the said Council, to enquire into the case of LOUIS CHARLES EMILE BEROARD, a registered Medical Practitioner, registered under the provisions of the Ontario Medical Act, and alleged to be liable to have his name erased from the Register of the said College by reason of infamous or disgraceful conduct in a professional respect.

To the President and Members of the Council of the College of Physicians and Surgeons of Ontario:

Gentlemen:—The undersigned Committee, duly appointed for the purposes of Sections 31-33 of the Ontario Medical Act, were directed to enquire into and ascertain the facts of the case of the said Louis Charles Emile Beroard, a duly registered medical practitioner, alleged to be liable to have his name erased from the Register for infamous or disgraceful conduct in a professional respect.

Notice of the charges which formed the subject matter of the enquiry, and of the time and place appointed to hear the evidence

in support of the said charges, was duly served on the said Louis Charles Emile Beroard, in accordance with the provisions of the Ontario Medical Act, and a copy of such notice is hereby appended as Schedule "A."

Your Committee duly met for the purpose of ascertaining the facts in the matter of the charges set forth in the said notice at the Registration Office in the College Building, No. 170 University Avenue, Toronto, on Tuesday, the 5th day of June, 1917, at the hour of 10 o'clock a.m., when the said Louis Charles Emile Beroard duly appeared. An agreement in writing, duly signed by the said Louis Charles Emile Beroard for admission of evidence, and for hearing in Toronto, instead of at Ottawa, as in the said notice provided was filed.

The Committee thereupon proceeded with the enquiry, when the said Louis Charles Emile Beroard, having been sworn, gave evidence stating the facts fully and acknowledging his evidence given in the City of Chicago, as recorded in a typewritten copy thereof filed as an exhibit.

A record of the evidence taken and of the exhibits therein referred to is herunto appended as Schedule "B."

Your Committee after due consideration have determined and report as follows:—

1. That the facts are as recorded in said Schedule "B."
2. That Dr. Beroard has facilitated the work of the Committee in such a way as to very greatly lessen the expense which would otherwise have been necessarily incurred in the matter.
3. That the charges as made were duly proven.
4. That the pleas made by Dr. Beroard in extenuation of the offences charged are recorded in the evidence, and in the letters submitted by Dr. Beroard in his evidence, and the Committee present the same for the consideration of the Council.
5. That the Committee recommend that the name of Dr. Louis Charles Emile Beroard be erased from the Register of the College of Physicians and Surgeons of Ontario.

REPORTS RECEIVED

Report of Finance Committee.

Report of Education Committee.

Report of Rules and Regulations Committee.

NOTICES OF MOTION

Dr. Ferguson, seconded by Dr. Eccles, gave notice of motion re education and accredited Colleges, as follows:—

“That it shall be the duty of the Education Committee to report annually on the list of ‘‘Accredited Colleges,’’ with a view of recommending what changes, if any, shall be made in said list.”

MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

Dr. J. M. MacCallum, seconded by Dr. Hamilton, moved the resolution re Globe Newspaper, of which notice was given yesterday, as follows:—

“The Council of the College of Physicians and Surgeons of Ontario, conscious of the exalted sentiments which have actuated the editorial columns of the Globe in all its utterances in the past in connection with the Ontario Medical Council and the Ontario Temperance Act, desires to assure the Globe of its co-operation, in any and all measures for the public welfare, a co-operation evinced by the past acts of this Council. At the same time this Council asks

the assistance of the *Globe* and its editorial columns, in putting an end to all patent and other subterfuges to evade the Ontario Temperance Act, notably the remedy "Tanlac," advertised in the columns of the *Globe*. This Council desires to express the belief that the editorial staff of the *Globe*, once apprised of the fact that 'Tanlac' is a wine containing seventeen per cent. of alcohol, and its medical constituents of little medicinal virtue, will at once take prompt measures to see that no further advertisements of 'Tanlac' appear in the *Globe*." (Carried).

Dr. Ferguson moved, seconded by Dr. Cruickshank, the following resolution, of which notice was given yesterday: "That the fees specified under 'f' and 'h,' section VI. of the last Annual Announcement, be reduced to \$5 and \$50 respectively."

After discussion, the motion was withdrawn.

Dr. Connell's motion, asking that the Council should sit at 8 o'clock p.m. to-day, after discussion, was withdrawn.

Report of Finance Committee

Dr. Becker moved, seconded by Dr. Kellam, the adoption of the report of the Finance Committee.

Dr. Ferguson moved in amendment, seconded by Dr. Cruickshank, "that the fee under clause 'h' of section VI. of the last Annual Announcement, be \$50 instead of \$100.00." (Amendment lost).

The report was then adopted.

The report follows herewith:

Toronto, June 28th, 1917.

The President and Members of the College of Physicians and Surgeons of Ontario,

Gentlemen:—Your Committee beg me to report that we have examined the Treasurer's report, properly audited, and find a balance in the bank, June 22nd, 1917, of \$17,880.18.

We recommend that the Sessional Allowance be the same as that of last year.

We recommend that the salary of the Registrar-Treasurer be \$2,750.00.

We recommend that Miss Rose be granted an honorarium of \$120.00, and that her salary be made \$18 per week.

Your Committee beg to draw attention to Clause "F," page 24 of the Announcement, and recommend that twenty dollars be refunded those matriculates who subsequently register their Canada Medical Council licentiate standing with the College.

All of which is submitted.

(Sgd.) H. BECKER,
Chairman.

Report of Education Committee

The report of the Education Committee was read by the Registrar.

The report, upon motion of Dr. Cruickshank, was considered clause by clause.

With relation to proposed clause "6," Dr. Cruickshank, seconded by Dr. Ferguson, moved in amendment, that the words "which accept similar certificates from this Council and," as they appear in the report of the Committee, be omitted.

(Amendment lost).

Dr. King moved, seconded by Dr. Stewart, that clause 15 be modified by the addition of the words "nor so long as he presents himself for and honestly tries each year until successful."

Dr. Hamilton, seconded by Dr. Walters, moved in amendment to the amendment, that clause 15 be struck out.

(The amendment to the amendment was carried).

The report as a whole was then adopted.

The report follows herewith:

Toronto, June 28th, 1917.

To the President and Members of the College of Physicians and Surgeons of Ontario.

Gentlemen:—The Education Committee begs to report as follows:—

1. Your Committee recommend that Robert Lane McCrady, a 1912 graduate of South Carolina Medical College, who states that he has spent two years as intern in Montreal General Hospital, be permitted to take our examinations after he spends one year in work in an Ontario Medical School, and provided that the credentials now held by him are satisfactory.

2. Your Committee recommend the adoption of the report of the Special Committee on "Accredited Colleges" when amended by inserting the clause "subsequent to July 1st, 1916," after "Graduates" in the first line of clause numbered "6."

3. That in the matter of the appeals of H. M. Barnes, W. E. Martin and H. R. Hargrave who failed in the Council Examinations, your Committee recommend that no action be taken.

4. Your Committee recommend that the action of the Registrar, who allowed one J. G. McKee to write on his paper, he being about two hours late owing to an accident to the train, be concurred in.

5. As no appeal is now permitted from the findings of the Board of Examiners, your Committee recommends that at the

usual meeting held by the Board of Examiners preparatory to banding in the Schedule of Examination marks to the Registrar, the President, with the Vice-President as his alternate, attend such meeting for consultation and consideration of said schedule with the Examiners.

6. Your Committee recommend that the Registrar be requested to require each University named in the "Report of Medical Colleges and Schools," to send the number of hospital beds utilized for teaching purposes by its Medical Faculty.

7. Dr. M. A. Kendrick, a graduate of Toronto University, and Dr. C. T. Coulter, a graduate of Queen's University, Kingston, who have been practising in Saskatchewan, and who by correspondence have obtained British Registration, Saskatchewan having reciprocal relations with Great Britain, have applied for license to practice in Ontario. Mr. Osler states that in accordance with the terms of our Reciprocity with Great Britain this cannot be granted. Your Committee therefore recommend that no action be taken.

8. Whereas at the present time undergraduates taking the Dominion Council Examinations must take all the subjects at one time, and it may be desirable that they be admitted to the Examinations in Anatomy and Physiology upon presentation of their University Certificates that they have completed the work and passed the examinations in these departments, but the Dominion Council cannot have the Act amended to permit of this, except by the consent of the various provinces, therefore your Committee recommend that this Council's consent be given that section 12, paragraph "a" of the Canada Medical Act be amended by substituting the words "the final" for "any" in the first line thereof.

9. The following resolution was passed by the Dominion Council in June, 1917: "That a Special Committee be appointed to enter into negotiations with the Provincial Councils for co-operation in conducting examinations with a view to the adoption of the Dominion Examinations as the single portal of qualification in the Dominion of Canada." Your Committee recommend that our representatives be instructed to enter into such negotiations.

10. Drs. McGhie, Gooch, Gallagher, Davidson, and McGhie, all of whom graduated M.B. from Queen's University in December, 1916, and who are pursuing their Fifth Year duties in various hospitals, none of whom have registered their matriculation with the Council, request they be permitted to present themselves at our Fall Examinations, and the portion of the year counted as a full year. Your Committee recommend that this be not allowed.

11. Your Committee recommends that the Regulations, Section 1, be amended by the introduction of paragraph "6." A Cer-

tificate of having passed the Junior Matriculation in Arts, conducted by any Canadian University engaged in teaching medicine.”

12. This Committee would recommend to the Universities the adoption of the following regulation:—

“Candidates for a degree in Medicine before entering upon their studies must present a certificate of registration from a Provincial Medical Board, or from a State Board of Licensure, as a fully matriculated medical student.”

13. Your Committee recommends that the Fall examinations begin on November 13th, 1917, the second Tuesday, and the Spring examinations begin on May 21st, 1918, the third Tuesday.

14. Your Committee recommends that the Fall examinations be held in Toronto beginning November 13th, 1917, the second Tuesday, and the Spring examination in Toronto, Kingston and London, beginning May 21st, 1918, the third Tuesday, and that the Examiners be as follows:—

Dr. E. L. Hodgins, London, Ont.—Surgery.

Dr. W. T. Connell, Kingston, Ont.—Medicine.

Dr. J. P. Vrooman, Napanee, Ont.—Medicine.

Dr. W. A. Thomson, London, Ont.—Midwifery and Diseases of Women.

Dr. H. T. Machell, Toronto, Ont.—Midwifery and Diseases of Women.

Dr. K. A. McLaren, Toronto, Ont.—Homeopathic Examiner.

Dr. G. L. Husband, Hamilton, Ont.—Homeopathic Examiner.

Dr. W. A. McFall, Toronto, Ont.—Alternative Examiner in Homeopathy.

15. That no prosecution should be instituted against Fifth Year students who are completing their course under the old regulations in offices of qualified practitioners.

All of which is respectfully submitted.

A. D. STEWART,
